

Dhruvil Padshala

MERN-STACK DEVELOPER

Passionate Computer Engineering student with hands-on experience in React, Next.js, React Native, JavaScript, and TypeScript. Skilled in developing efficient, user-friendly web and mobile applications. Adept at transforming ideas into innovative digital solutions that address real-world challenges and enhance user experiences.

Work Experience

Internship

NOV 2023 - Present

- During the internship at Quickint Solutions, I gained valuable experience and practical skills in a dynamic work environment. My responsibilities included hands-on projects, collaboration with team members, and applying theoretical knowledge to real-world scenarios. This experience allowed me to develop problem-solving skills, enhance my technical abilities, and gain insight into the professional world.

Project

Gate Pass Management System - Admin Panel

- A comprehensive gate pass management solution designed to enhance security and streamline visitor management for organizations, residential complexes, and educational institutions.

Gate Pass Mobile Application

- A cross-platform mobile application built with React Native for both Android and iOS devices, designed to streamline gate pass management for residential complexes and security personnel. The app offers two distinct user interfaces: one for residents to manage visitors and maintenance requests, and another for security staff to monitor and control access.

Educational Background

Bachelor of Technology in Computer Engineering

Silver Oak University

2021-2025

- The education at Silver Oak University is designed to be highly interactive and engaging. With a focus on hands-on learning and real-world applications, the curriculum ensures that students not only gain theoretical knowledge but also practical skills. The program emphasizes a comprehensive approach, integrating various teaching methods to enhance understanding and retention.

11 & 12 Science

2018-2020

- Explore advanced concepts in physics, chemistry, and Mathematics through interactive lessons and practical experiments. This educational journey is designed to deepen your understanding of scientific principles and prepare you for higher education and future careers in science. Engage with hands-on activities and real-world applications to solidify your knowledge and critical thinking skills.
